Please help us to help you by completing this form. The information you provide will remain strictly confidential.

Please ask reception staff for help if you have any problems completing this form.

NEW PATIENT HEALTH CHECK

Dear Patient

Thank you for registering with The Northolme Practice. We aim to give you the best care possible.

As a newly registered patient, we would like to invite you to have a **New Patient Health Check**. The health check will enable the Practice to discuss any medical problems you may have or any medication that you may be taking. Also to record any relevant family history there may be.

You may need to book an appointment with a GP before repeat prescriptions can be given. Please bring all your medications with you when you attend for your first appointment.

Would you like to make an appointment for a New Patient Health Check with our Healthcare Assistant?

Yes No

Yours sincerely

Drs, Ross, Cameron, Howes, Santhanam, & Malone.

PATIENT PARTICIPATION GROUP

The Northolme Practice has a Patient Participation Group that meets twice per year. The Practice is keen to involve patients in the development of services and care. At Northolme we are always looking for patients from all age groups, social and cultural backgrounds to join the group. If you would like more information about the group please speak to one of the receptionists or pick up a leaflet from reception.

SUPPLEMENTARY QUESTIONS
PATIENT DECLARATION for all patients who are not ordinarily resident in the UK

Anybody in England can register with a GP practice and receive free medical care from that practice.

However, if you are not 'ordinarily resident' in the UK you may have to pay for NHS treatment outside of the GP practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of 'indefinite leave to remain' in the UK.

Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges.

More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from your GP practice.

You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.

The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (e.g. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick one of the following boxes:

- a) I understand that I may need to pay for NHS treatment outside of the GP practice
- b) I understand I have a valid exemption from paying for NHS treatment outside of the GP practice. This includes for example, an EHIC, or payment of the Immigration Health Charge ("the Surcharge"), when accompanied by a valid visa. I can provide documents to support this when requested
- c) I do not know my chargeable status

I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me.

A parent/guardian should complete the form on behalf of a child under 16.

ELECTRONIC PRESCRIPTION SERVICE (EPS)

The Electronic Prescription Service (EPS) is an NHS service. It gives you the chance to change how your GP sends your prescription to the place you choose to get your medicines or appliances from.

What does this mean for you?

- If you collect your repeat prescriptions from your GP you will not have to visit your GP Practice to pick up your paper prescription. Instead, your GP will send it electronically to the place you choose, saving you time.
- You will have more choice about where to get your medicines from because they can be collected from a pharmacy near to where you live, work or shop.
- You may not have to wait as long at the pharmacy as there will be time for your repeat prescriptions to be ready before you arrive.

Is this service right for you?

Yes, if you have a stable condition and you:

- don't want to go to your GP Practice every time to collect your repeat prescription.
- collect your medicines from the same place most of the time or use a prescription collection service now.

It may not be if you: don't get prescriptions very often or pick up your medicines from different places.

How can you use EPS?

You need to choose a place for your GP Practice to electronically send your prescription to. This is called **nomination**. You can choose a pharmacy or a dispensing appliance contractor (if you use one).

Ask any pharmacy or dispensing appliance contractor that offers EPS or your GP Practice to add your nomination for you. **You don't need a computer to do this.**

YOUR ELECTRONIC PATIENT RECORD & THE SHARING OF INFORMATION

Please read this carefully. It will give you information about the sharing of your electronic patient record and the choices you need to make.

Today, electronic records are kept in all the places where you receive healthcare. These NHS Care Services can usually only share information from your records by letter email, fax or phone. At times, this can slow down your treatment and mean information is hard to access.

The Northolme Practice uses a computer system called SystemOne that allows the sharing of electronic records across different NHS Care Services. We are telling you about this as a patient at this Practice as you have a choice to make about how the Practice shares information about your care from your electronic patient record. This form is not about your Summary Care Record (SCR), it is asking your sharing preferences regarding your full electronic GP record. You can choose to share or not to share your electronic GP record with other NHS Care Services.

How is my decision recorded? Our Practice computer system has two settings to allow you to control how your medical information is shared.

Sharing Out – This controls whether your full GP electronic patient record can be shared with other **NHS Care Services** where you are treated.

Please record your preference (please tick):

Sharing Out: Yes (shared) No (not shared)

Sharing In – This controls whether you agree for this Practice to view information you've agreed to share at other **NHS Care Services**. **Please record your preference** (please tick):

Sharing In: Yes (viewable) No (not viewable)

SUMMARY CARE RECORD (SCR)

If you are registered with a GP practice in England, you will already have a Summary Care Record (SCR), unless you have previously chosen not to have one. It will contain key information about the medicines you are taking, allergies you suffer from and any adverse reactions to medicines you have had in the past.

Information about your healthcare may not be routinely shared across different healthcare organisations and systems. You may need to be treated by health and care professionals who do not know your medical history. Essential details about your healthcare can be difficult to remember, particularly when you are unwell or have complex care needs.

Having a Summary Care Record can help by providing healthcare staff treating you with vital information from your health record. This will help the staff involved in your care make better and safer decisions about how best to treat you.

You have a choice

You have the choice of what information you would like to share and with whom. Authorised healthcare staff can only view your SCR with your permission. The information shared will solely be used for the benefit of your care.

**Your options are outlined below;
please indicate your choice on the form overleaf.**

- **Express consent for medication, allergies and adverse reactions only.** You wish to share information about medication, allergies for adverse reactions only.
- **Express consent for medication, allergies, adverse reactions and additional information.** You wish to share information about medication, allergies for adverse reactions and further medical information that includes: your illnesses and health problems, operations and vaccinations you have had in the past, how you would like to be treated (such as where you would prefer to receive care), what support you might need and who should be contacted for more information about you.
- **Express dissent for Summary Care Record (opt out).** Select this option, if you DO NOT want any information shared with other healthcare professionals involved in your care.

If you chose not to complete this consent form, a core Summary Care Record (SCR) will be created for you, which will contain only medications, allergies and adverse reactions.

Once you have completed the consent form, please return it to your GP practice. You are free to change your decision at any time by informing your GP practice.
